#### Colour variation:

Due to leather being a natural product, slight colour variations are normal from tanning batch to batch.

#### Leather Care:

We recommend that you clean and care for your leather regularly to maintain its look and feel.

Please do not use solvents, chloride, abrasives, chemical cleaning agents or harsh polishes.

Light coloured leather may get discolouration from jeans and other coloured material.

Please visit [www.afriwestgroup.com](http://www.afriwestgroup.com) for our full range of leather care products.
